CHANGE OVER FOR TOOL PLANT; SET UP NEW OIL INDUSTRIES

TO COMPART TO HEAVY MACHIMERY -- Smabad Mep, No 83, 10 Apr 49

The Diosgyor Gengyar NV (the Diosgyor Machine Factory) will gradually transform its machine-tool manufacturing arom-light to heavier machinery.

The plant has been very successful in manufacturing lathes. From the manufacture of the smaller turret lathes, it will turn to the manufacture of the larger turret lathes and heavy machine tools, such as presses and milling machines. Powerful 170-ton trench plows will also be built. These will be 10 meters high and 10 meters long and will be able to turn 3 - 4 tons of dirt at a time.

Twenty-ains million forints have been allocated for the manufacture of the new machines.

COAL AND STREE PRODUCTION TO RISE -- Magyar Newset, No 98, 29 Apr 59

Hungarian mining production has surpassed the Aswar level by 20 persont. Coal production during the Five-Year Flan will be increased from 11 million tons to 18 million tons. Steel and iron ore production will be raised from 800,000 to 1,500,000 tons. The largest alumina factory in Europe will be incated at Almastuzite.

NEW REFERENCES IN PETROLEUM INDUSTRY -- Valagosaag, No 99, 30 Apr 49

New national enterprises have been established in the petroleum and by-products industries. The new companies are the Hyirbogdanyi Asvanyolajipari NV Nyirbogdany Petroleum Company) and the Lardoline Vegyigyar NV (Lardoline Chemical Company). In addition, the Banya Villamos Muvek Rt. (Kine Electric Works Inc.) has been reorganized into the Tatabanyai Erosu NV (Tatabanya Power Plant).
